

# Project Pray 2010

Take this request to your churches Prayer Chain???

**For “Pocket Scriptures”.** *Our dream for 2010 is that every child and adult in the country begins each day by putting a “Pocket Scripture” in their pocket, carrying it all day and reading it again at night. What could be better for children, parents and the country” I/we don’t understand why sharing this idea with others is so very slow. Could you pray for ways to get as many people as possible to visit our new website [www.bibleparent.com](http://www.bibleparent.com) ...and that they catch the dream. I/we will be contacting American Family Radio again this month hoping that since their shareathon is over we can catch someones attention.*

## **Prayer for my hands (Charles White)**

The problem with my hands has been getting a little worse each day for nearly a year and is now become a real danger to me. I have seen a specialist three times without results. The skin turns hard and peels off and the new skin does not mature properly. At it’s worst it cracks and bleeds and puts me at great risk of infection. The Doctors say that aside from antibiotics to avoid infection, more cortisone for the inflammation, and crazy glue to hold the cracks closed there is little they can do. They don’t really know what is causing it and that I might have it the rest of my life. Hope you might pray. **Left Knee:** I hurt both knees nearly 50 years ago especially the left one. I know I am facing a knee replacement but would like to put it off as long as possible to continue work on our “Pocket Scriptures Project” *Could you pray too that God enable me to complete the work I/He/we began so many years ago...that he strengthen my faith, my hope and my love for others? One of my favorite Christian Authors Charles Spurgeon said “The best way to see others saved is to let him save you utterly and completely. Could your church pray this for me”*

**(For my mother Dorothy) The problem with my Mother’s irregular heartbeat (too many PVC’S) has returned.** Somehow the electrical signals to her heart are out of rhythm and two signals at the same time cause her heart to miss beats. The Doctors say this is not unusual and not generally dangerous... BUT in her case there are far too many missed beats. For the last week her pulse at 10pm as been 39 beats a minute...far too few. She saw the heart doctor who said there were medications he could try but they might also make the problem worse. Hope you might pray that God can help her pulse get back up where it belongs without experimenting with dangerous drugs. This request is very special to me.

Thank you for praying...Charles White
