

# Help us make the Bible LIVE

First in your child's mind and then in his heart.

**When you replace last weeks scripture with this new one take turns saying the words out loud one at a time.**

**The** Lord turn his face toward you and give you PEACE.

The **Lord** turn his face toward you and give you PEACE.

The Lord **turn** his face toward you and give you PEACE.

The Lord turn **his** face toward you and give you PEACE.

Knowing in your heart that God is the creator of the Universe matters very very much but until a child understands that this is only part of what is so important about the Bible. A more important part is that God is actually interested in each of us. When you say the word YOU, touch your child in some way, have h\_\_ touch you.

Scripture is the second most wonder-full thing a parent can give a child. It protects, guides, teaches, nurtures, comforts and perhaps most important of all heals. Aren't these what you want for your child...grandchild?? **Isn't it worth it to find a large envelope or notebook to keep each of the pages your child colors?**
