

Having God's word (especially hand colored) in your home makes you the spiritual leader your children NEED.

The next step is just as easy. Take just 2 minutes at night to help each child look up the other half of their pocket scriptures or hand colored verses. Helping them get *the feel* of the Bible in their **hands** is a job no one else can do as well as you.

CONSIDER what a love of scripture does for a child.

When they are afraid it comforts and guides.

When they are angry and confused it teaches.

When they are in danger it protects and strengthens.

When they lose hope it encourages and inspires.

When they are alone it reminds them of Jesus.

**A scripture on the refrigerator
AND in the pocket
Makes Bible verses *personal and comfortable*.**

**Having a Bible in a child's hands should
remind him and you of his first time holding a fork or spoon.
*AS YOU LOOK UP THE SECOND HALF OF EACH VERSE
be gentle and loving.***

(Children soon forget what we do and say but remember forever how we made them feel.)
