

2001 YOUNG READERS BOOKLIST

(Revised list for 2004 available shortly.)

Finding alternatives to the network television MUCKATHON is not easy and yet find them we must or our children face a world where sensation-alism is the new religion, desensitization the new morality, and pre-mature sexual adventuring the only end in sight. One of the best alternatives is serial fiction, children's books written with one adventure following the next. These books can keep them a child

occupied for months and more importantly keep them away from the media MUCKATHON that neither we nor they are prepared to deal with. We believe the following folks deserve your support. They are trying. Let's help them out. Start a library in your home or **sponsor a bookshelf in your child's Sunday School classroom.** If we do not offer our children ALTERNATIVES then we are guiltier than the networks and their main supporters...your local television station and its advertisers. Pass this list to them. We need them on our side.

Concordia Publishing House (1-800-325-3040), www.CPHMALL.com
