

Pray for Kenton and Matthew Fritz?

July 2009

Kenton is the 35 year old father. Matthew is the fourteen year old son.

When he was very young Kenton's father used to hold his bottom on the electric stove till he was badly burned. Obviously this makes it difficult for Kenton to trust God or people but for many years he has done his best to love his wife (a mentally challenged citizen and his son...also challenged.)

Some months ago Kenton's wife left the home. The divorce was complete about eight weeks ago and Kenton and Matthew are afraid and upset. *Kenton's panic attacks are getting worse.* Not only has the mother left the home but the very kind couple who lived two doors down recently moved which leaves Kenton with very few friends. I have tried for 15 years to help them get involved with a church but they always end up saying they don't feel comfortable or that Kenton has to work ...something.

Hope you might pray for Kenton...He prays and believes but his emotional suffering has been intense all his life...especially now that he is divorced. He has a sweet spirit and remembers always every kind thing anyone does for him. Hope you might pray.

In his service and yours

J. Charles White
